USERS GUIDE

General

- This tariff references the National Exchange Carrier Association, Inc., Access Service Tariff F.C.C. No. 5 for its terms and conditions. This tariff contains rates applicable to Interstate Access Services provided by Emery Telephone with the exception of the Federal Universal Service Charge, ISDN Line Ports, DS1 Line and End User Access Service.
- Emery Telephone, in accordance with the provisions of Part 61.39(a) of the FCC's Rules and Regulations, did elect to file its own tariff and reference the regulations, terms and conditions of the National Exchange Carrier Association, Inc. (NECA) Tariff F.C.C. No. 5 Access Service for the General Regulations, Federal Universal Service Charge, ISDN Line Port, DS1 Line Port, End User Access Service, Switched Access and Special Access Services, and other miscellaneous services contained therein. Regulations, terms and conditions applicable to these services are therefore specifically cross referenced to the National Exchange Carrier Association, Inc. Access Service Tariff F.C.C. No. 5.

ACCESS SERVICE

TARIFF INFORMATION AND USE

INTRODUCTION

The Tariff Information and Use section is meant to assist both experienced and inexperienced users of this tariff in understanding the following:

- tariff content, structure, format and organization,
- effective dates and numbering schemes,
- tariff maintenance procedures,
- symbols and abbreviations, and
- references to other documents/tariffs.

ACCESS SERVICE

TARIFF INFORMATION AND USE (CONT'D)GENERAL

This tariff contains rates and regulations applicable to Access Services.

Tariff Page Format

Page Numbering. Page numbers are located in the upper right corner of each tariff page. Pages are numbered sequentially. When a new page must be added between existing pages, a decimal and number is added to the previous page number, to sequentially number the new page. For example a new page between existing pages 20 and 21 would be numbered 20.1. A new page added between pages 18.1 and 18.2 would be numbered 18.1.1.

Page Revision Numbering. Page Revision Numbers are located in the upper right-hand corner of each tariff page. This number is the most recent page revision on file with the FCC. Due to Notice Periods, and change Effective Dates, the most recent page on file with the FCC may not be in effect. Consult the Effective Date on a specific page and Tariff Supplements to determine if that page is in effect (see Tariff Supplements following).

Issue Date. The Issue Date in the lower left corner of each tariff page is the date that page was filed with the FCC.

Effective Date. The Effective Date in the lower right-hand corner is the date the page is scheduled to go into effect (at 12:01 a.m. on that date). This date may be changed by either reissuing the page, or by issuing a tariff supplement to change the effective date without reissuing the page. A Tariff Supplement is usually used when many tariff pages are involved to avoid the necessity to reprint and reissue many pages solely to change the effective date.

ACCESS SERVICE

TARIFF INFORMATION AND USE (CONT'D)GENERAL (CONT'D)Tariff Section Numbering

An alpha-numeric numbering plan is used to number tariff regulations and rates. Each level is subordinate to and dependent on its next higher level. An example of the numbering sequence follows:

- 6.
- 6.2
- 6.2.1
- 6.2.1(B)
- 6.2.1(B)(2)
- 6.2.1(B)(2)(a)

Tariff Revision Coding

Revisions to this tariff are coded through the use of symbols. These symbols appear in the right margin of the page. The symbols and their meanings are:

- N - to signify new rate or regulation.
- R - to signify reduction to a rate or charge.
- I - to signify increase to a rate or charge.
- D - to signify discontinued rate or regulation.
- C - to signify changed regulation.
- T - to signify a change in text but no change in rate or regulation.
- S - to signify matter reissued without change.
- M - to signify matter relocated without change.
- Z - to signify a correction.

Other marginal codes are used to direct the reader to a footnote for specific information. Codes used for this purpose are lower case letters of the alphabet, e.g., x, y and z. These codes may appear beside the page revision number or in the right margin opposite specific text.

ACCESS SERVICE

TARIFF INFORMATION AND USE (CONT'D)TARIFF STRUCTURE AND ORGANIZATIONTariff Supplements

A Supplement may be filed with the FCC to change the effective date of tariff pages or tariff material without reissuing or refiling the affected tariff pages.

A Supplement will briefly describe the action taken (e.g., suspension, deferral, effective date change, etc.) as well as indicate what tariff material, sections or pages are affected.

The Supplements in effect are listed by number on the first Check Sheet, in the text at the top of that Check Sheet. When a Supplement is no longer needed, it will be deleted from the Check Sheet.

It is recommended that Supplements be placed in the front of the tariff, preceding the Title Page.

Title Page

Title Page 1 provides information regarding the FCC number of the tariff, the class of service provided, the geographical application of the tariff, and the type of facilities used to provide service. This page also provides information related to the origination of the tariff.

ACCESS SERVICE

TARIFF INFORMATION AND USE (CONT'D)TARIFF STRUCTURE AND ORGANIZATION (CONT'D)Check Sheets (Page 2)

When new or revised tariff pages are filed with the FCC, revised and updated Check Sheets are also filed with the FCC.

The Check Sheets list all pages in the tariff as well as the most recent revision number of each page. When pages are changed, or added, the Check Sheets are changed to reflect the change or addition. An asterisk (*) is placed next to revised or added pages to highlight the pages changed.

The Check Sheets list the most recent page revision filed with the FCC. It does not indicate that the latest revision is effective. The effective date on the page itself and Tariff Supplements must be examined to determine page effectiveness.

Table of Contents (Pages 3 through 4)

The Table of Contents lists the Sections and paragraphs of the Tariff and provides a page number at which that Section or paragraph begins.

Symbols and Abbreviations (Page 16 through 18)

A listing and explanation of tariff coding symbols and abbreviations used in the tariff is provided.

Technical Publications (Pages 20 through 21)

The status and availability of technical publications required for the provision of Access Service is provided.

Section 1 - Application of Tariff

States the application and scope of the Access Service tariff.

ACCESS SERVICE

TARIFF INFORMATION AND USE (CONT'D)TARIFF STRUCTURE AND ORGANIZATION (CONT'D)Section 2 - General Regulations

States the general regulations that apply to the access services offered by this tariff.

Section 3 - Federal Universal Service Charge, ISDN Line Ports and DS1 Line Port and Section 4 End User Access

States the regulations concerning Federal Universal Service Charge, ISDN Line Ports, DS1 Line Port and End User Access Service, respectively.

Section 5 - Access Ordering

States the requirements of and regulations governing Access Orders and also the regulations concerning Access Orders when service is provided by multiple exchange carriers.

Section 6 - Switched Access Service

States the regulations governing the provision of Switched Access Service. This section is subdivided into General, Undertaking of the Telephone Company, Obligations of the Customer and Rate Regulations which relate to all Switched Access Services. In addition, this section contains subdivisions for the Description and Provision of each Switched Access Feature Group Service (e.g., FGA, FGB, FGC, and FGD).

Section 7 - Special Access Service

States the regulations for Special Access Service. This section is subdivided into General, Rate Regulations and Surcharge for Special Access Service which relate to Special Access Services. In addition, there are subdivisions describing each of the seven Special Access classes of service (e.g., Metallic Telegraph, Voice Grade, Program Audio, Video, Digital Data, and High Capacity). There is also a subdivision for Individual Case Basis Filings (ICBs).

ACCESS SERVICE

TARIFF INFORMATION AND USE (CONT'D)TARIFF STRUCTURE AND ORGANIZATION (CONT'D)Section 8 - Reserved for Future UseSection 9 - Reserved for Future UseSection 10 - Special Federal Government Access Service

This section covers Special Access Services that are provided to a customer for use only by agencies or branches of the Federal Government and other users authorized by the Federal Government. Services provided to state emergency operations are included.

Section 11 - Special Facilities Routing of Access Services

This section covers Special Facilities Routing which involves access services which may be routed (1) via diverse routes in order to effect an added margin of protection and reliability in the event of facility outages, (2) via routes avoiding specified geographical locations, or (3) via cable only facilities.

Section 12 - Specialized Service or Arrangements

This section covers service or arrangements not offered under other sections of this tariff. When service or arrangements are furnished via this section they are provided on an individual case basis (ICB).

Section 13 - Additional Engineering, Additional Labor and Miscellaneous Services

This section covers the regulation governing Additional Engineering, Additional Labor, Miscellaneous Services, Presubscription and Access Recovery Charge.

ACCESS SERVICE

TARIFF INFORMATION AND USE (CONT'D)TARIFF STRUCTURE AND ORGANIZATION (CONT'D)Section 14 - Exceptions to Access Service Offerings

This section is provided to identify those Issuing Carriers who do not provide certain categories of Access Service offered by this tariff.

Section 15 - Access Service Interfaces and Transmission Specifications

This section covers the technical specifications and service parameters of Access Services. Explains and lists Network Channel (NC) codes, Network Channel Interface (NCI) codes and Service Designator (SD) codes. Displays the technical specifications packages available with Special Access Service.

Section 16 - Public Packet Data Network

This section provides for Public Packet Data Network services and contains the terms and conditions and rate regulations pertaining to Frame Relay Access Service, Asynchronous Transfer Mode Cell Relay Access Service, Ethernet Transport Service, and Internet Protocol Gateway Access Service.

Section 17 - Rates and Charges

This section provides all the rates and charges for the Access Services contained in this tariff. It is organized by Common Line Access Service, Switched Access Service, Special Access Service and Other Services.

ACCESS SERVICE

1. Application of Tariff

- 1.1 This tariff contains regulations, rates and charges applicable to the provision of End User Access, Switched Access, Special Access, Public Packet Data Network and other miscellaneous services, hereinafter referred to collectively as services(s). These services are provided to customers by Emery Telephone, hereinafter referred to as the Telephone Company. This tariff also contains Access Ordering regulations and charges that are applicable when these services are ordered or modified by the customer.
- 1.2 The provision of such services by the Telephone Company as set forth in this tariff does not constitute a joint undertaking with the customer for the furnishing of any service.

ACCESS SERVICE

2. General Regulations

The General Regulations applicable to services offered under this tariff are the same as those set forth in Section 2 of the National Exchange Carrier Association Tariff F.C.C. No. 5.

ACCESS SERVICE

3. Federal Universal Service Charge, ISDN Line Ports and DS1 Line Port

Regulations, Terms and Conditions for Federal Universal Service Charge, ISDN Line Port and DS1 Line Port are the same as those set forth in Section 3 of the National Exchange Carrier Association Tariff F.C.C. No. 5.

ACCESS SERVICE

4. End User Access Service

Regulations, Terms and Conditions for End User Access Service are the same as those set forth in Section 4 of the National Exchange Carrier Association Tariff F.C.C. No. 5.

ACCESS SERVICE

5. Access Ordering

Regulations, Terms and Conditions for Access Ordering are the same as those set forth in Section 5 of the National Exchange Carrier Association Tariff F.C.C. No. 5.

ACCESS SERVICE

6. Switched Access Service

Regulations, Terms and Conditions for Switched Access Service are the same as those set forth in Section 6 of the National Exchange Carrier Association Tariff F.C.C. No. 5.

ACCESS SERVICE

7. Special Access Service

Regulations, Terms and Conditions applicable to Special Access Service are the same as those set forth in Section 7 of the National Exchange Carrier Association Tariff F.C.C. No. 5.
